Virginia Air Pollution Control Board,
Holiday Inn Alexandria
2460 Eisenhower Avenue
Alexandria, Va 22314

Distinguished Board members

I am talking for my self, my 3 teenagers and my husband.

I am honored to be able to ~~testify~~ speak in front of the Virginia Air Pollution Control Board. You have a vast amount of experience, intelligence and wisdom. I testified in Richmond to keep you and your ability to deny permits. Boo!

I am saddened that DEQ seems to be on the side of a polluter, and not on the side of a healthy citizenship and a healthy environment.

Mirant needs to install, up to date, air pollution technology. This technology will give us plenty of energy until Mirant can be shut down permanently.

We can then replace a polluting plant with green energy, giving even more jobs to Alexandria then what Mirant is giving now.

I ask you to deny the 2 stack permit.

Sincerely,

Cindy Patterson
