Administrative Conditions

The following Administrative Conditions are applicable to funding awarded by this amendment, any future amendments and any unobligated balances (defined at 2 CFR 200.98) on the award as of this amendment unless otherwise noted:

1. General Terms and Conditions

The recipient agrees to comply with the current EPA general terms and conditions available at: http://www.epa.gov/ogd/tc/general_tc_applicable_aa_recipients_dec_26_2014.pdf. These terms and conditions are in addition to the assurances and certifications made as part of the award and the terms, conditions or restrictions cited below.

The EPA repository for the general terms and conditions by year can be found at: <http://www.epa.gov/ogd/tc.htm>.

2. Indirect Costs

If the recipient does not have a previously established indirect cost rate, it agrees that it will prepare its indirect cost rate proposal and/or cost allocation plan and in accordance with 2 CFR 200.416 "Cost allocation plans and indirect cost proposals."

If EPA is the cognizant federal agency, the state recipient must send its indirect cost rate proposal within six (6) months after the close of the governmental unit's fiscal year to:

Recipients are entitled to reimbursement of indirect costs, if they have a current rate agreement, or have submitted an indirect cost rate proposal to their cognizant federal agency for review and approval. Recipients are responsible for maintaining an approved indirect cost rate. Recipients with differences between their provisional rates and final rates are not entitled to more than the award amount, without EPA approval.

Recipients must comply with the audit requirements prescribed in 2 CFR 200.501(a).

3. Annual Federal Financial Report

Pursuant to 2 CFR 200.327 and 200.343, the recipient agrees to submit to EPA an annual Federal Financial Report (FFR) (SF-425) when the budget period is longer than one year. The following reporting period end dates shall be used for interim reports: 3/31, 6/30, 9/30, or 12/31. Interim reports shall be submitted no later than 90 days after the end of each reporting period.

The form is available on the internet at <http://www.epa.gov/financial/forms>. All FFRs must be submitted to the Las Vegas Finance Center (LVFC) via email LVFC-grants@epa.gov or fax at 702-798-2423.

4. UTILIZATION OF SMALL, MINORITY AND WOMEN'S BUSINESS ENTERPRISES

GENERAL COMPLIANCE, 40 CFR, Part 33

The recipient agrees to comply with the requirements of EPA's Disadvantaged Business Enterprise (DBE) Program for procurement activities under assistance agreements, contained in 40 CFR, Part 33.

MBE/WBE REPORTING, 40 CFR, Part 33, Subpart E

MBE/WBE reporting is required in annual reports. Reporting is required for assistance agreements where there are funds budgeted for procuring construction, equipment, services and supplies, including funds budgeted for direct procurement by the recipient or procurement under subawards or loans in the "Other" category that exceed the threshold amount of \$150,000, including amendments and/or modifications.

Based on EPA's review of the planned budget, this award meets the conditions above and is subject to the Disadvantaged Business Enterprise (DBE) Program reporting requirements. However, if recipient believes this award does not meet these conditions, it must provide the EPA Grant Specialist with a justification and budget detail within 21 days of the award date clearly demonstrating that, based on the planned budget, this award is not subject to the DBE reporting requirements.

The recipient agrees to complete and submit a "MBE/WBE Utilization Under Federal Grants, Cooperative Agreements and Interagency Agreements" report (EPA Form 5700-52A) on an annual basis. All procurement actions are reportable, not just that portion which exceeds \$150,000.

When completing the annual report, recipients are instructed to check the box titled "annual" in section 1B of the form. For the final report, recipients are instructed to check the box indicated for the "last report" of the project in section 1B of the form. Annual reports are due by October 30th of each year. Final reports are due by October 30th or 90 days after the end of the project period, whichever comes first.

The reporting requirement is based on total procurements. Recipients with expended and/or budgeted funds for procurement are required to report annually whether the planned procurements take place during the reporting period or not. If no budgeted procurements take place during the reporting period, the recipient should check the box in section 5B when completing the form.

MBE/WBE reports should be signed and emailed to R3_MBE-WBE_Reports@epa.gov as a pdf file, or if that is not possible, mailed to Cynthia Burrows, Diversity/EEO Manager (3DA10), U.S. EPA - Region III, 1650 Arch Street, Philadelphia, PA 19103-2029 with a courtesy copy to the EPA Grant Specialist. The current EPA Form 5700-52A can be found at the EPA Office of Small Business Program's Home Page at http://www.epa.gov/osbp/dbe_reporting.htm ;

This provision represents an approved deviation from the MBE/WBE reporting requirements as described in 40 CFR, Part 33, Section 33.502; however, the other requirements outlined in 40 CFR Part 33 remain in effect, including the Good Faith Effort requirements as described in 40 CFR Part 33 Subpart C, and Fair Share Objectives negotiation as described in 40 CFR Part 33 Subpart D and explained below

FAIR SHARE OBJECTIVES, 40 CFR, Part 33, Subpart D

A recipient must negotiate with the appropriate EPA award official, or his/her designee, fair share objectives for MBE and WBE participation in procurement under the financial assistance agreements.

In accordance with 40 CFR, Section 33.411 some recipients may be exempt from the fair share objectives requirements described in 40 CFR, Part 33, Subpart D. Recipients should work with their DBE coordinator, if they think their organization may qualify for an exemption.

Current Fair Share Objective/Goal

The dollar amount of this assistance agreement or the total dollar amount of all of the recipient's financial assistance agreements in the current federal fiscal year from EPA is \$250,000, or more. The Virginia Department of Environmental Quality has negotiated the following, applicable MBE/WBE fair share objectives/goals with EPA as follows:

MBE%: CONSTRUCTION 5.8%; EQUIPMENT 4.1%; SERVICES 3.9%; SUPPLIES 1.5%
WBE%: CONSTRUCTION 4.0%; EQUIPMENT 4.2%; SERVICES 2.6%; SUPPLIES 1.6%

Negotiating Fair Share Objectives/Goals

In accordance with 40 CFR, Part 33, Subpart D, established goals/objectives remain in effect for three fiscal years unless there are significant changes to the data supporting the fair share objectives. The recipient is required to follow requirements as outlined in 40 CFR Part 33, Subpart D when renegotiating the fair share objectives/goals.

SIX GOOD FAITH EFFORTS, 40 CFR, Part 33, Subpart C

Pursuant to 40 CFR, Section 33.301, the recipient agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under an EPA financial assistance agreement, and to require that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

- (a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local and Government recipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.
- (b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.
- (c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.
- (d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.
- (e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
- (f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

CONTRACT ADMINISTRATION PROVISIONS, 40 CFR, Section 33.302

The recipient agrees to comply with the contract administration provisions of 40 CFR, Section 33.302.

BIDDERS LIST, 40 CFR, Section 33.501(b) and (c)

Recipients of a Continuing Environmental Program Grant or other annual reporting grant, agree to create

and maintain a bidders list. Recipients of an EPA financial assistance agreement to capitalize a revolving loan fund also agree to require entities receiving identified loans to create and maintain a bidders list if the recipient of the loan is subject to, or chooses to follow, competitive bidding requirements. Please see 40 CFR, Section 33.501 (b) and (c) for specific requirements and exemptions.

5. State Grant Cybersecurity Condition

(a) The recipient agrees that when collecting and managing environmental data under this assistance agreement, it will protect the data by following all applicable State law cybersecurity requirements.

(b) (1) EPA must ensure that any connections between the recipient's network or information system and EPA networks used by the recipient to transfer data under this agreement, are secure.

For purposes of this Section, a connection is defined as a dedicated persistent interface between an Agency IT system and an external IT system for the purpose of transferring information. Transitory, user-controlled connections such as website browsing are excluded from this definition.

If the recipient's connections as defined above do not go through the Environmental Information Exchange Network or EPA's Central Data Exchange, the recipient agrees to contact the EPA Project Officer (PO) and work with the designated Regional/Headquarters Information Security Officer to ensure that the connections meet EPA security requirements, including entering into Interconnection Service Agreements as appropriate. This condition does not apply to manual entry of data by the recipient into systems operated and used by EPA's regulatory programs for the submission of reporting and/or compliance data.

(2) The recipient agrees that any subawards it makes under this agreement will require the subrecipient to comply with the requirements in (b)(1) if the subrecipient's network or information system is connected to EPA networks to transfer data to the Agency using systems other than the Environmental Information Exchange Network or EPA's Central Data Exchange. The recipient will be in compliance with this condition: by including this requirement in subaward agreements; and during subrecipient monitoring deemed necessary by the recipient under 2 CFR 200.331(d), by inquiring whether the subrecipient has contacted the EPA Project Officer. Nothing in this condition requires the recipient to contact the EPA Project Officer on behalf of a subrecipient or to be involved in the negotiation of an Interconnection Service Agreement between the subrecipient and EPA.

Programmatic Conditions

The following Programmatic Conditions are applicable to funding awarded by this amendment, any future amendments and any unobligated balances (defined at 2 CFR 200.98) on the award as of this amendment unless otherwise noted:

1. FY2015 State Clean Diesel Program (DERA) Programmatic Terms and Conditions.

The recipient agrees to comply with the FY2015 State DERA terms and conditions available at: http://www.epa.gov/ogd/tc/fy_15_dera_state_program.pdf. These terms and conditions are in addition to any award specific programmatic terms and conditions outlined directly on the award document.

2. Leveraging

The recipient agrees to provide the proposed leveraged funding, including any voluntary cost-share contribution or overmatch that is described in its final approved workplan. If the proposed leveraging does not materialize during the period of award performance, and the recipient does not provide a satisfactory explanation, the Agency may consider this factor in evaluating future proposals from the recipient. In addition, if the proposed leveraging does not materialize during the period of award performance then EPA may reconsider the legitimacy of the award; if EPA determines that the recipient knowingly or recklessly provided inaccurate information regarding the leveraged funding the recipient described in its final approved

workplan. EPA may take action as authorized by 2 CFR Part 200 and/or 2 CFR Part 180 as applicable.

3. Mandatory Cost-Share Requirement

This award and the resulting federal funding share of 47.07% as shown under "Notice of Award" above is based on estimated costs requested in the recipient's final approved workplan. While actual total costs may differ than those estimates, the recipient is required to provide no less than the cost-share percentages outlined below, as applicable, of the final equipment costs. EPA's participation shall not exceed the total amount of federal funds awarded or the maximum federal cost-share percentages outlined below, as applicable, of the final equipment costs. Recipients must satisfy any applicable cost share requirements with allowable costs as set forth in 2 CFR 200.306. The cost share requirements are as follows:

- P.1. Engine Upgrades: EPA will fund up to 40% of the cost (labor and equipment) of an eligible engine upgrade; recipient is responsible for cost-sharing at least 60% of the cost of an eligible engine upgrade.
- P.2. Idle Reduction Technologies on Locomotives: EPA will fund up to 40% of the cost (labor and equipment) of an eligible idle reduction technology on a locomotive; recipient is responsible for cost-sharing at least 60% of the cost of an eligible idle reduction technology on a locomotive.
- P.3. Marine Shore Power Connection Systems and Truck Stop Electrification: EPA will fund up to 25% of the cost (labor and equipment) of an eligible shore connection system or truck stop electrification technology; recipient is responsible for cost-sharing at least 75% of the cost of an eligible shore connection system or truck stop electrification technology.
- P.4. Certified Engine Repower: EPA will fund up to 40% of the cost (labor and equipment) of an eligible engine repower; recipient is responsible for cost-sharing at least 60% of the cost of an eligible engine repower.
- P.5. Certified Vehicle/Equipment Replacement:
 - P.5.1. *Nonroad Diesel Vehicle and Equipment Replacement* : EPA will fund up to 25% of the cost of a replacement vehicle or piece of equipment powered by a 2013 model year or newer certified nonroad engine; recipient is responsible for cost-sharing at least 75% of the cost of an eligible replacement vehicle or piece of equipment.
 - P.5.2. *Drayage Vehicle Replacement* : EPA will fund up to 50% of the cost of a replacement drayage truck powered by a 2010 model year or newer certified highway heavy-duty engine; recipient is responsible for cost-sharing at least 50% of an eligible drayage replacement vehicle.
 - P.5.3. *All Other Highway Diesel Vehicle Replacement* : EPA will fund up to 25% of the cost of a replacement Class 5 – Class 8 vehicle powered by a 2013 model year or newer certified highway heavy-duty diesel engine; recipient is responsible for cost-sharing at least 75% of an eligible replacement vehicle.
- P.6. Clean Alternative Fuel Conversions: EPA will fund up to 40% of the cost (labor and equipment) of an eligible clean alternative fuel conversion; recipient is responsible for cost-sharing at least 60% of the cost of an eligible clean alternative fuel conversion.

The eligible acquisition cost for equipment means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in transit insurance and freight may be included in or excluded from the acquisition cost in accordance with the non-Federal entity's regular accounting practices.

FY2015 State Clean Diesel Program (DERA) Programmatic Terms and Conditions

A. Substantial Federal Involvement for Cooperative Agreements

EPA will provide substantial involvement in the form of technical assistance, development of outputs, and oversight. Specifically, substantial federal involvement will take the form of monitoring the project by EPA, participation and collaboration between EPA and the recipient in program content, review of project progress, and quantification and reporting of results.

B. Emissions Control Technologies

Emissions Reduction Projects funded by the recipient pursuant to this assistance agreement must use verified technologies and/or must use engines and engine configurations certified by EPA and, if applicable, CARB. Technologies are verified under EPA or California's Retrofit Technology Verification Programs. See <http://epa.gov/cleandiesel/verification/verif-list.htm> for an updated list of EPA's verified technologies and <http://www.arb.ca.gov/diesel/verdev/vt/cvt.htm> for a list of CARB's verified technologies. Any question as to the eligibility or preference of a retrofit technology, including vehicle/equipment replacement and repowers, should be directed to the EPA Project Officer. Technology changes may not be allowed after a final workplan has been approved. If technology compatibility issues arise, EPA may elect to terminate the cooperative agreement, at which time assistance funds must be returned to EPA.

C. Quarterly Reporting and Environmental Results

Quarterly progress reports will be required. Quarterly reports are considered project status reports and will address the progress made achieving the work plan goals. In general, quarterly reports will include summary information on technical progress and expenditures, and planned activities for next quarter. A template for the quarterly report is available at <http://www.epa.gov/cleandiesel/grant-reporting.htm>.

Quarterly reports are due according to the following schedule. If a due date falls on a weekend or holiday, the report will be due on the next business day.

April 1 – June 30 Reporting Period: report due date July 30
July 1 – September 30 Reporting Period: report due date October 30
October 1 – December 31 Reporting Period: report due date January 30
January 1 – March 31 Reporting Period: report due date April 30

If a project start date falls within a defined Reporting Period the recipient must report for that period by the given due date. This quarterly reporting schedule shall be repeated for the duration of the award agreement.

D. Final Report:

The final project report will include all categories of information required for quarterly reporting, including a final, detailed fleet description. The final project report will also include a narrative summary of the project or activity, project results (outputs and outcomes) including final emissions benefit calculations, and the successes and lessons learned for the entire project. To the extent possible, final emission benefit calculations should be based on the actual number and type of technologies, vehicles, equipment and engines implemented under the award and actual vehicle miles traveled, idling and/or operating hours, and fuel use. If actual vehicle miles traveled, idling and/or operating hours, and fuel use are not available, the final report will include a detailed explanation of how these values are derived, as well as any assumptions or default values used, for the purposes of emissions benefit calculations. The final report will also detail the methodologies used for the emission benefit calculation.

For projects involving vehicle/equipment replacement and repowers the recipient must provide in the final report: 1) Evidence that the replacement activity is an "early replacement," and would not have occurred through normal attrition/fleet turnover (i.e. without the financial assistance provided by EPA) within three years of the project period start date. Supporting evidence can include verification that the vehicles or equipment being replaced have useful life left and fleet characterization showing fleet age ranges and average turnover rates per the vehicle or fleet owner's budget plan, operating plan, standard procedures, or retirement schedule; 2) Evidence of appropriate scrappage (see E.3.5 and E.3.6 below); and 3) Specification of the model years and the emission standard levels for PM and NOx, for both the engine being replaced and the new engine.

For projects that take place in an area affected by, or includes vehicles, engines or equipment affected by federal law mandating emissions reductions, the recipient must provide in the final report evidence that emission reductions funded with EPA funds were implemented prior to the effective date of the mandate and/or are in excess of (above and beyond) those required by the applicable mandate.

The final report shall be submitted to the EPA Project Officer within 90 days after the project period end date or termination of the assistance agreement. A template for the final report is available at <http://www.epa.gov/cleandiesel/grant-reporting.htm>.

E. Use of Funds Restriction:

- E.1. Mandated Measures: Recipient agrees that funds under this award cannot be used for emissions reductions that are mandated under federal law. This refers to specific compliance dates within the mandate, not when the mandate is passed. Voluntary or elective emissions reductions measures shall not be considered "mandated", regardless of whether the reductions are included in the State Implementation Plan of a State.
- E.2. Normal Attrition: Recipient agrees that funds under this award cannot be used for emission reductions that result from vehicle/equipment replacements or repowers that would have occurred through normal attrition/fleet turnover within three years of the project start date (e.g. FY15 award funds, including recipient cost-share, shall not be used for replacements/repowers that would have occurred through normal fleet turnover

prior to September 30, 2018). Any question as to eligibility of a vehicle/equipment replacement or repower should be directed to the EPA Project Officer.

- E.3. Fleet Expansion: Recipient agrees that funds under this award, including subawards/subgrants, cannot be used for the purchase of vehicles, engines, or equipment to expand a fleet. The recipient agrees that:
- E.3.1. The repowered or replacement vehicle, engine, or equipment must be of similar size and/or horsepower, and will perform the same function and operation as the vehicle, engine, or equipment that is being repowered or replaced (e.g., an excavator used to dig pipelines would be replaced by an excavator that continues to dig pipelines);
 - E.3.2. *For Engine Repowers*: Horsepower increases of more than 25 percent will require specific approval by the EPA Project Officer prior to purchase, and the applicant may be required to pay the additional costs associated with the higher horsepower engine.
 - E.3.3. *For Nonroad Replacements*: Horsepower increases of more than 25 percent will require written approval by the EPA Project Officer prior to purchase, and the applicant may be required to pay the additional costs associated with the higher horsepower equipment.
 - E.3.4. *For Highway Replacements*: The replacement vehicle must not be in a larger weight class than the existing vehicle (Class 5, 6, 7, or 8). The engine's primary intended service class must match the replacement vehicle's weight class (i.e. a LHD diesel engine is used in a vehicle with GVWR 16,001 – 19,500 pounds, a MHD diesel engine is used in a vehicle with a GVWR of 19,501 – 33,000 pounds, and an HHD diesel engine is used in a vehicle with a GVWR greater than 33,000 pounds.) Exceptions may be granted for vocational purposes, however the GVWR must stay within 10 percent of the engine's intended service class and any exceptions will require written approval by the EPA Project Officer prior to purchase.
 - E.3.5. *For Engine Repowers*: The engine being replaced will be scrapped or rendered permanently disabled within ninety (90) days of the replacement. Cutting a three inch by three inch hole in the engine block is the preferred scrapping method. Other methods may be considered and will require prior written approval by the EPA Project Officer. Evidence of appropriate disposal is required in a final assistance agreement report submitted to EPA and includes a signed certificate of destruction (to be provided by the EPA Project Officer) and digital photos of the engine tag (showing serial number, engine family number, and engine model year) and the destroyed engine block. If scrapped or salvaged engines are to be sold, program income requirements apply.
 - E.3.6. *For Nonroad and Highway Replacements*: The vehicle/equipment being replaced will be scrapped or rendered permanently disabled within ninety (90) days of the replacement. Disabling the engine may be completed as described in E.3.5 above. Disabling the chassis may be completed by cutting completely through the frame/frame rails on each side of the vehicle/equipment at a point located between the front and rear axles. Other acceptable scrapping methods may be considered and will require prior written approval by the EPA Project Officer. Evidence of appropriate disposal is required in a final assistance agreement report submitted to EPA and includes a signed certificate of

destruction (to be provided by the EPA Project Officer) and digital photos of the engine tag (showing serial number, engine family number, and engine model year), the destroyed engine block, and cut frame rails or other cut structural components as applicable. Vehicle/equipment components that are not part of the engine or chassis may be salvaged from the unit being replaced (e.g. plow blades, shovels, seats, etc.). If scrapped or salvaged vehicle/equipment chassis or components are to be sold, program income requirements apply.

- E.3.7 *For Tire Replacements*: The original tires should be scrapped according to local or state requirements, or the tires can be salvaged for reuse or retreading. If salvaged tires are sold, program income requirements apply.
- E.4. Matching Funds: Recipient agrees that funds under this award cannot be used for matching funds for other federal grants, lobbying, or intervention in federal regulatory or adjudicatory proceedings, and cannot be used to sue the Federal Government or any other government entity. Likewise, recipient may not use federal funds as cost-share funds for the State Clean Diesel Grant Program, including funds received under the National Clean Diesel Emissions Reduction Program and federal Supplemental Environmental Project (SEP) funds.
- E.5. Formerly Verified Technologies: Recipient agrees that funds under this award cannot be used for retrofit technologies on EPA's or CARB's, "Formerly Verified Technologies" lists: <http://www.epa.gov/cleandiesel/verification/deleted-list.htm>, www.arb.ca.gov/diesel/verdev/vt/fv1.htm, www.arb.ca.gov/diesel/verdev/vt/fv2.htm, and www.arb.ca.gov/diesel/verdev/vt/fv3.htm. Recipient agrees that funds under this award cannot be used for idle reduction technologies on EPA's "Technologies No Longer Verified" list that can be found at: <http://epa.gov/smartway/forpartners/technology.htm#tabs-4>. Recipient agrees that funds under this award cannot be used for technologies on EPA's De-listed Emerging Technologies list which can be found at: www.epa.gov/cleandiesel/verification/emerg-list.htm.
- E.6. Emissions Testing: Recipient agrees that funds under this award cannot be used for emissions testing and/or air monitoring activities (including the acquisition cost of emissions testing equipment), or research and development.
- E.7. Fueling Infrastructure: Recipient agrees that funds under this award cannot be used for fueling infrastructure, such as that used for the production and/or distribution of biodiesel, compressed natural gas, liquefied natural gas, and or other cleaner fuels.
- E.8. Aluminum Wheels: Recipient agrees that funds under this award cannot be used for the purchase of aluminum wheels except where a fleet is retrofitting from standard dual tires to SmartWay-verified single-wide low rolling resistance tires. In this case, the cost of aluminum single-wide wheels would be acceptable as additional equipment necessary to use the SmartWay- verified technology, as would the cost of steel or light weight steel single-wide wheels.
- E.9. Tires and Aerodynamics: Recipient agrees that funds under this award cannot be used to purchase aerodynamic technologies or low rolling resistance tires, unless they are combined on the same vehicle with a new installation of a verified exhaust control funded under this award. In addition, recipient agrees that funds under this award cannot be used for the purchase of low rolling resistance tires or advanced aerodynamic technologies if similar technologies have previously been installed on the truck or trailer.

- E.10. Auxiliary Power Units: Recipient agrees that funds under this award cannot be used for the purchase of APUs or generators for vehicles with MY 2007 or newer certified engine configurations on long haul Class 8 vehicles.
- E.11. Idle Reduction Technologies: Recipient agrees that funds under this award cannot be used for the purchase of idle reduction technologies unless they are combined on the same vehicle with a new installation of a verified exhaust control funded under this award, except for use on locomotives and previously retrofitted school buses, and for shore connection systems or truck stop electrification technologies.
- E.12. On-highway Model Year: Recipient agrees that funds under this award cannot be used to retrofit, repower, convert or replace a bus or Class 5 – Class 8 heavy-duty highway vehicle with engine model year 1990 older, or to retrofit engine model year 2007 or newer with DOCs or DPFs, or retrofit engine model year 2010 or newer with SCR, or replace engine model year 2004-2006 with other than with an all-electric vehicle, or replace, repower or convert engine model year 2007 or newer.
- E.13. F. Drayage Vehicle Replacement Project Requirements:

- F.1. In addition to the scrappage requirements for all vehicles/equipment described in E.3.4 above, recipients replacing drayage vehicles are required to establish and document

guidelines to ensure that the scrapped vehicle has a history of operating on a frequent basis over the prior year as a drayage truck.

G. Delays or Favorable Developments:

The recipient agrees that it will promptly notify the EPA Project Officer of any problems, delays, or adverse conditions which may materially impair its ability to deliver on the outputs/outcomes specified in the work plan. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation. The recipient agrees that it will also notify the EPA Project Officer of any favorable developments which may enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.

H. Employee and/or Contractor Selection:

EPA will not help select employees or contractors hired by the recipient.

I. Program Income:

If program income is generated during the course of the project, program income requirements apply. Program income as defined at 2 CFR 200.80 means gross income received by the grantee or subgrantee that is directly generated by a grant supported activity or earned as a result of the Federal award during the period of performance. "Period of performance" is the time between the start and end dates of the period of performance as included in the Federal award. Program income earned during the project period shall be retained by the recipient and, in accordance with 2 CFR 200.307 recipient is authorized to use program income as follows:

- I.1. Program income may be added to the Federal award by EPA and recipient and used to further eligible project or program objectives. The program income shall be used for the purposes and under the conditions of the grant agreement.
- I.2. Program income may be used to meet the cost sharing or matching requirement of the Federal award, including any mandatory or voluntary cost share. The amount of the Federal award remains the same.
- I.3. Deducted from the total allowable costs to determine the net allowable costs on which the federal share of costs is based. This means that the recipient shall spend program income on project activities before spending/requesting federal funds for project activities. This may result in unspent federal funds at the end of the project period.

The recipient will maintain records adequate to document the extent to which transactions generate program income and the disposition of program income.

J. Equipment Use, Management, and Disposition

These equipment use, management, and disposition instructions are applicable to assistance agreement recipients and subrecipients acquiring equipment under this award. State agencies

may use, manage and dispose of equipment acquired a Federal award by the state in accordance with state laws and procedures.

Recipient agrees the equipment acquired under this assistance agreement will be subject to the use and management and disposition regulations at 40 CFR 200.313.

Equipment is defined as tangible personal property having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of \$5,000, or the capitalization level established by the non-Federal entity for financial statement purposes (see 2 CFR 200.12 Capital assets). Certified or verified technologies, vehicles, engines and nonroad equipment are considered to be equipment to the extent they fall within this definition.

Recipient agrees that at the end of the project period the recipient will continue to use the equipment purchased under this assistance agreement in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by the Federal award. When acquiring replacement equipment, the non-Federal entity may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property. Items of equipment with a current per unit fair market value of \$5,000 or less may be retained, sold or otherwise disposed of with no further obligation to the Federal awarding agency.

K. Procurement and Sub-grant Procedures:

The recipient must follow applicable procurement and sub-grant procedures. EPA will not be a party to these transactions. If EPA funds are used to purchase goods or services, recipient agrees to compete the contracts for those goods and services and conduct cost and price analyses to the extent required by the fair and open competition for procurement provisions of 2 CFR 200.317 – .326. Approval of a funding proposal does not relieve recipients of their obligations to compete service contracts, conduct cost and price analyses, and use sub-grants only for financial assistance purposes.

L. For-Profit Sub-recipients

In addition to the EPA General Term and Condition #7 “Establishing and Managing Subawards”, the recipient agrees to:

- L.1. 13. **COLLATERAL CONTRACTS:** Where there exists any inconsistency between this Contract and other provisions of collateral contracts which are made a part of this Contract by reference or otherwise, the provisions of this Contract shall control.

14. **CREATION OF INTELLECTUAL PROPERTY (NOT APPLICABLE TO CONTRACTS WITH OTHER STATE AGENCIES):** All copyrightable material created pursuant to this Contract shall be considered work made for hire and shall belong exclusively to the Department. Neither party intends any copyrightable material created pursuant to this Contract, together with any other copyrightable material with which it may be combined or used, to be a "joint work" under the copyright laws. If any copyrightable material created pursuant to this Contract cannot be deemed work made for hire or is deemed part of a joint work, the Grantee agrees to irrevocably assign, and does hereby irrevocably assign, its entire copyright interest in such material or work to

the Department and shall execute and deliver such further documents as the Department may reasonably request for the purpose of acknowledging such assignment.

The Grantee warrants that no individual, other than regular employees of the Grantee or Department working within the scope of their employment, shall participate in the creation of any copyrightable material to be delivered under this Contract, unless such individual and his or her employer, if any, have signed an intellectual property contract satisfactory to the Department before commencing such participation.

The Department shall have all rights, title and interest in or to any invention reduced to practice pursuant to this Contract. The Grantee shall not patent any invention conceived in the course of performing this Contract.

The Grantee hereby agrees that, notwithstanding anything else in this Contract, in the event of any breach of this Contract by the Department, the Grantee's remedy shall not include any right to rescind or otherwise revoke or invalidate the provisions of this Section. Similarly, no termination of this contract by the Department shall have the effect of rescinding the provisions of this Section.

This provision applies only to materials or documents developed with Contract funds. It does not apply to materials or documents previously copyrighted or registered under the Grantee's copyright or trademark or to materials or documents which are developed with other funds.

15. DISCLAIMER: Nothing in this Contract shall be construed as authority for either party to make commitments which will bind the other party beyond the project or work contained herein. Furthermore, the Grantee shall not assign, sublet, or subcontract any work related to this Contract or any interest it may have herein without the prior written consent of the Department.

16. DOCUMENTS: The Grantee may retain any reports, studies, photographs, negatives, or other documents prepared by the Grantee in the performance of its obligations under this Contract and not required to be delivered to the Department. The Department shall have the copyright to all such materials, and unlimited rights to use any such materials. Where necessary for the Department's full enjoyment of its copyrights and other rights referenced in this Contract, the Grantee shall provide a clear, reproducible copy of such materials (machine readable upon request) to the Department.

The Grantee has permission to reproduce and distribute any material or documents prepared by the Grantee and for which the Department owns the copyright, but only where necessary or expeditious to the performance of the Grantee's obligations under this contract.

This provision applies only to materials or documents developed with contract funds. It does not apply to materials or documents previously copyrighted or registered under the Grantee's copyright or trademark or to materials or documents which are developed with other funds.

17. DUN AND BRADSTREET DATA UNIVERSAL NUMBERING SYSTEM (DUNS): To implement the Federal Financial Accountability and Transparency Act (FFATA), it requires sub-recipients for federal awards to have a Dun and Bradstreet Data Universal Numbering System (DUNS) number, and it is strongly recommended that the sub-recipient register in the Central Contractor Registry (CCR) system.

18. EMPLOYEE ADMINISTRATION AND COSTS: In the event this Agreement provides funds to the Grantee for personnel or personnel related expenditures, the Grantee shall be solely responsible for all: (a) personnel administration and obligations, to include, but not limited to: hiring, evaluations, termination, etc.; and (b) costs, to include, but not limited to: payment for leave, unused time, unemployment insurance and unforeseen employment liabilities (e.g. unemployment compensation, leave pay out, workers compensation, etc.). The DEQ shall not assume any responsibilities or obligations as an employer; nor shall the DEQ assume any liability (during or after the term of this Agreement) for personnel related costs incurred by the Grantee in order to fulfill its obligations under this Agreement (except as noted below):

Note: The DEQ may, in its sole discretion and as specifically allowed in this Agreement, or in accordance with the overriding federal costs principles, reimburse the Grantee for salary and eligible fringe costs incurred during the performance of this Agreement.

19. **FAIR SHARE GOAL: GENERAL COMPLIANCE, 40 CFR, PART 33:** The Grantee agrees to comply with the requirements of EPA's Program for Utilization of Minority and Women's Business Enterprises (MBE/WBE) in procurement under assistance agreements, contained in 40 CFR, Part 33.

SIX GOOD FAITH EFFORTS, 40 CFR, PART 33, SUBPART C (Section 33.301): Grantee agrees to make the following good faith efforts whenever procuring construction, equipment, services and supplies under this grant contract and prime contractors also shall comply. Records documenting compliance with the six good faith efforts shall be retained.

(a) Ensure Disadvantaged Business Enterprises (DBEs) are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and local government recipients, this will include placing DBEs on solicitation lists and soliciting them whenever they are potential sources.

(b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation by DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.

(c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local government recipients, this will include dividing total requirements when economically feasible into smaller task or quantities to permit maximum participation by DBEs in the competitive process.

(d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

(e) Use the services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce or VA Department of Minority Business Enterprise (DMBE) in finding DBEs. MBE/WBE businesses must now be officially certified as such in order to be counted towards an EPA grantee's 'Fair Share' MBE and WBE goals accomplishments.

(f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraphs (a) through (e) of this section.

Grantee agrees to complete the Substitute DEQ MBE/WBE Report Form (copy attached) semi-annually on awards of subcontract(s) to a minority or women's business. Reports shall continue until the final subcontract is awarded, whether or not a sub-contract(s) is awarded to a minority or women's business in the subsequent quarters. Reports shall be submitted according to the following schedule:

<u>Period</u>	<u>Report Due</u>
April 1 - September 30	October 15
October 1 - March 31	April 15

Reports shall include all subcontracts made by the Grantee with minority or women's businesses. Reports may, but are not required to, include subsequent tiers of subcontracts. Reference BIDDERS LIST, 40 CFR, Section 33.501(b) and (c) - Grantee agrees to create and maintain a bidders list.

20. **FEDERAL AND NON-FEDERAL COST SHARING RELATED TO GRANTS:** If actual allowable project costs are less than the total approved estimated budget, the federal and non-federal cost share ratio as reflected in the approved estimated budget shall apply. If actual allowable costs are greater than the total approved estimated budget, the federal share shall not exceed the total federal dollar amount as reflected in the contract.

21. **FINANCIAL RECORDS AVAILABILITY:** The Grantee agrees to retain all books, records, and other documents relative to this contract for five years after final payment, or until audited by an independent auditor, whichever is earlier. The Department, its authorized agents, and/or state auditors shall have full access to and the right to examine any of said materials during said period.
22. **FIRE SAFETY:** Pursuant to 40 CFR 30.18, if applicable, and 15 USC 2225a, the Grantee agrees to ensure that all space for conferences, meetings, conventions, or training seminars funded in whole or in part with federal funds complies with the protection and control guidelines of the Hotel and Motel fire Safety Act (PL 101-391, as amended). 24. **FOOD AND REFRESHMENTS:** Grant funds shall not be used for food/refreshments at activities/events (e.g. meetings, workshops, training, field days or conferences) unless the objectives of the event would be compromised if food/refreshments were not provided. The criteria to be used to determine whether an event qualifies and providing food/refreshments is reasonable and appropriate include:
- The length of the event (the event lasts all day, usually at least 6 hours);
 - It is impractical for participants to obtain lunch on their own (due to isolation or distance to restaurants or their office);
 - It can be documented that physical attendance of all participants was essential; and
 - It can be documented that participants are working during the normal meal time as stated on an agenda (e.g. working lunch or dinner) and no other opportunity for a meal will be provided.

Costs for food and refreshments shall be at or less than the Commonwealth of Virginia or local per diem rates (as applicable) for the event location.

The expenditure of funds on food/refreshments, must be clearly stated in the work plan and the budget narrative).

The following EPA food policy is incorporated herein, except as modified below:

“(EPA Food Policy GPI 11-2): Unless the event(s) and all of its components (i.e., meetings, conferences, outreach activities, field events training or receptions, banquets and other activities that take place after normal business hours) are described in the approved workplan, the recipient agrees to obtain prior approval from the DEQ for the use of grant funds for light refreshments and/or meals served at meetings, conferences, training workshops, and outreach activities (events). The recipient must send requests in writing for approval to the DEQ Grant Manager and include:

- An estimated budget and description for the light refreshments, meals, and/or beverages to be served at the event(s);
- A description of the purpose, agenda, location, length and timing for the event.
- An estimated number of participants in the event and a description of their roles.

Recipients may address questions about whether costs for light refreshments, and meals for events are allowable to

the DEQ Grant Manager. However, the EPA Project officer and the Agency Award Official or Grant Management Officer will make final determinations on allowability. *Agency policy prohibits the use of EPA funds for receptions, banquets and similar activities that take place after normal business hours unless the recipient has provided a justification that has been expressly approved by EPA's Award Official or Grants Management Officer.”

Note: U.S. General Services Administration regulations define light refreshments for morning, afternoon or evening breaks to include, but not be limited to, coffee, tea, milk, juice, soft drinks, donuts, bagels, fruit, pretzels, cookies, chips, or muffins. (41 CFR 301-74.11).”

(*The above policy is revised as follows: The Grantee shall obtain prior authorization from the DEQ for all food / refreshment purchases, regardless of the type of event or the date or time of the event.

Requests for reimbursement for food/refreshment costs shall be included in the Grantee’s quarterly report, which shall include a copy of the: pre-authorization approval, signed attendance list, invoices or receipts for food /refreshment purchases, and the final description of the purpose, agenda etc. for the event(s) (if it changed from the Grantee’s original submission). The DEQ will not reimburse the Grantee for any unauthorized costs related to food / refreshments.

26. **INDIRECT COSTS:** Indirect costs will not be allowable charges against the award unless specifically included as a line item in the approved budget incorporated into the Contract.
27. **INTEGRATION AND MODIFICATION:** No alteration, amendment or modification in the provisions of this Contract shall be effective unless it is reduced to writing, signed by the parties and attached hereto.
28. **LIABILITY (NOT APPLICABLE TO CONTRACTS WITH OTHER STATE AGENCIES):** The Grantee shall take out and maintain, during the life of this Contract, such bodily injury liability and property damage liability insurance as will protect it from claims of damages for personal injury, including death, as well as from claims for property damage, which may arise from its activities under this contract. If the Grantee has a self-insurance program, it may self-insure the risks associated with this Contract in lieu of the commercial insurance required herein.
29. **MAINTENANCE OF RECORDS AND AUDIT (COMPLIANCE WITH CIRCULAR A-133 REQUIREMENTS):** The Grantee is required to do the following: provide the Department access to records and financial statements to determine compliance with federal requirements; facilitate the Department's monitoring and oversight activities; inform the Department in writing when not required to undergo a single audit; on request, inform the Department whether the relevant program would be audited as major using the risk-based approach (determined solely by the auditor) or, if not, the cost of having it audited as such (if desired by the Department, the Grantee must have the program audited as a major); send a copy of its audit reporting package to the Department when a single audit is required and the schedule of findings and questioned costs discloses audit findings (or the summary schedule of prior audit findings reports on the status of audit findings) related to the Department's award of federal funds; inform the Department in writing that an audit was conducted in accordance with Circular A-133 and that no audit findings and questioned costs (for the current or prior year) were related to the award (sending a copy of the audit reporting package is a sure way to meet this notification requirement); on request, send the Department a copy of the audit reporting package and any management letters issued by the auditor, even when not required to do so (e.g., no audit findings were related to the award); resolve audit findings (including the preparation of a corrective action plan) and comply with any management decision

issued by the Department (due within six months of receiving the Grantee's audit report); follow-up on audit findings, unless no longer valid because they occurred at least two years earlier, the Department did not follow-up on the findings, and a management decision was never issued; and keep copies of audit reports and related documentation on file for at least three years following the audit period for review by the Department.

30. **OBLIGATING FUNDS BEYOND PROJECT PERIOD:** The Grantee shall not incur costs or obligate funds for any purpose pertaining to the project beyond the expiration date stipulated in the contract.

Any extension of the award period can only be authorized by the Department. Verbal or written assurances of funding from other than the Department shall not constitute authority to obligate funds for programmatic activities beyond the expiration date.

The Department has no obligation to provide any additional prospective funding. Any renewal of the award to increase funding and to extend the period of performance is at the sole discretion of the Department.

31. **OTHER FEDERAL GRANT AWARDS:** The Grantee shall immediately provide written notification to the Department in the event that, subsequent to receipt of federal funds under this contract, other federal financial assistance is received relative to the scope of work of this contract.

This requirement does not apply to reports prepared on forms supplied by EPA, or to Standard Forms, which are printed on recycled paper and are available through the General Services Administration. Please note that Section 901 of E.O. 13101, dated September 14, 1998, revoked, *Federal Acquisition, Recycling, and Waste Prevention* in its entirety.
35. **REGULATORY COMPLIANCE:** The Grantee shall comply with all laws, ordinances, rules, regulations, and lawful orders of any public authority bearing on the performance of the project and shall give all Notices required thereby. The Grantee hereby consents to inspection by any state regulatory agency having jurisdiction over any part of the work performed with the assistance of the contract funds.
