Richard Londergan, PhD
Principal Scientist
ARCADIS U.S., Inc.
1 Executive Drive, Suite 303
Chelmsford, MA 01824

Dear Dr. Londergan:

The Virginia Department of Environmental Quality (DEQ) has reviewed the CPV Smyth Generation Company, LLC Meteorological Monitoring Plan, Version 1.1. The monitoring plan was submitted for approval in order to operate an on-site meteorological monitoring system to support a Prevention of Significant Deterioration (PSD) permit application for the proposed CPV Smyth Energy Center in Atkins, Virginia. One year of suitable on-site data are to be collected for use with the USEPA AERMOD air dispersion model. The plan was received by DEQ via email on February 19, 2013.

The revised meteorological monitoring plan is approved with the condition that monthly data summaries are provided to DEQ in an electronic format.

Please do not hesitate to contact me if there are any questions.

Sincerely,

A handwritten signature in black ink that reads "Dan Salkovitz".

Dan Salkovitz
Meteorologist
