**Subject:** Dominion Power Plant in Front Royal

I respectfully request that the Air Pollution Control Board review the impact of Dominion Power's proposal to build a power plant in Front Royal. I am deeply concerned about its impact on the Shenandoah National Park as well as the air quality in my neighborhood. All necessary measures must be taken to insure that the Park is not being endangered and that the resident's quality of life and health in the Front Royal area not be negatively impacted.

Thank you.
