Dear Ms. Riggleman,

I am writing to you as a citizen of the Shenandoah Valley who is concerned about our air quality in light of the pending Dominion Power Plant proposal in Front Royal. In the 10 years that I have lived here I have witnessed a degradation in the air quality, which can clearly be seen by the naked eye in viewing the local sights as well as even the deposits that come to rest on my windows. The last time we took out-of-town guests to drive on the Skyline Parkway in the Shenandoah Park, I was appalled at the sight of large segments of the forest that look like a drawing of a gloomy forest in a fairy tale as a result of the acid rain that falls there. I urge you to please see that the request to expand the facility receives the Air Pollution Control Board's special attention before Dominion's receives approval.

Thank you,  
Michele Rhodes
