Subject: Dominion's Proposed Gas Plant in Front Royal

Anita – I am writing to request that Dominion's proposal for the new plant be reviewed by the State Air Pollution Control Board. If the Park Service has concerns, which they do, then I share those concerns. I value our clean air and our national parks – these are two of the things that make our State and our region great. Front Royal is an important tourist gateway which must be protected. We must strike the right balance between growth, energy conservation and transmission and the environment. New offsets must be real, be measurable and enforceable and be of a level that the Park Service and the Control Board approves.

Thanks for considering my comments. I am happy to answer any questions you may have and can be reached at the contact info below.

Regards,

Steve Lamb
