Re: Request for Prevention of Significant Deterioration Permit –
Withdrawal of Portions of Application
Virginia Electric and Power Company
Registration No. 81391
AIRS ID No. VA-187-00041

Dear Ms. Owens:

Virginia Electric and Power Company (Dominion) submitted an application for a Prevention of Significant Deterioration (PSD) permit to the Virginia Department of Environmental Quality (DEQ) on January 18, 2010. That application requested permission to construct one of three mutually exclusive scenarios involving three different manufacturers of combustion turbine technology. Dominion has narrowed the potential scenarios from the original three to a single scenario. By this letter, we are withdrawing the relevant sections of the application pertaining to Options 1 and 3 and are seeking a permit only for Option 2 of our application and supplemental submittals pertaining to that technology.

Please continue to process our application for this revised scenario.

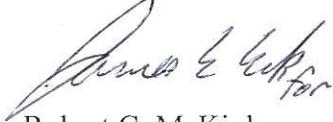

Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering and evaluating the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
