

Virginia City Hybrid Energy Center
Response to Data Request
Hullihen Moore, Virginia Air Pollution Control Board

Question (Page No. 5):

Provide the number of tons of coal burned by each EGU without cleaning, washing, treating, or otherwise preparing for the years 2005, 2006, and 2007. State the type of such coal, run-of-mine, waste coal, etc.

Response:

Dominion considers all coal consumed at its Virginia plants to be processed since the coals have been screened to remove oversized, unusable material prior to shipment to our plants.
