Middle Peninsula Public
Access Authority (MPPAA)

Who we are

The Middle Peninsula Public Access Authority was created by the Virginia General Assembly on April 7, 2002 and ratified by participating localities on June 13, 2003.

The Public Access Authority (MP-PAA) recognizes that shorelines are high priority natural areas and that it is critical to set aside access sites for all types of recreational activities important to our economy and to the citizens of the

Commonwealth of Virginia. As a regional leader in addressing public access
