**Re: Radford Army Ammunition Plant, Radford, VA
EPA ID No. VA1210020730, Extension Request for Response to Second Round
Notice of Deficiency (NOD) Addressing the Part B Application for Renewal of the
Hazardous Waste Subpart O Explosive Waste Incinerator Permit**

Dear Mr. Stewart:

The DEQ received your request for a 30 day extension for the Radford Army Ammunition Plant's (RAAP) submission of the response to the Second Round NOD addressing the renewal application for the Explosive Waste Incinerator Permit, dated April 14, 2015, via electronic mail on April 15, 2015. As detailed in your letter, the extension is being requested to allow for additional time to conduct further research and formulate your responses. In addition, you agreed to remove language in the permit concerning materials generated at the Dublin facility (New River Unit (NRU)) being brought to RAAP for disposal. You further indicate that all hazardous waste generated at the NRU will be handled as required by the Virginia Hazardous Waste Management Regulations.

Your request for an extension has been approved and the deadline for RAAP's submission of the requested information will now be May 19, 2015. The DEQ anticipates that this additional time will be sufficient and that further extensions will not be necessary. DEQ encourages RAAP to promptly notify DEQ of any issues, questions, or items that should be resolved in advance of the deadline for the response.

If you have any questions regarding this letter please contact me at (804) 698-4129 or by e-mail at Leslie.Romanchik@deq.virginia.gov.

Sincerely,

A handwritten signature in blue ink that reads "Leslie A. Romanchik". The signature is written in a cursive style.
