STATE AIR POLLUTION CONTROL BOARD
ENFORCEMENT ACTION – AMENDMENT TO ORDER BY CONSENT
ALLIANT TECHSYSTEMS OPERATIONS LLC
FOR
NEW RIVER ENERGETICS
Registration No. 21258

SECTION A: Purpose

This is an Amendment of an Order by Consent (Amendment) issued under the authority of Va. Code §§ 10.1-1309 and -1316, between the State Air Pollution Control Board and the Alliant Techsystems Operations LLC (ATK) regarding the New River Energetics (NRE) facility near Radford, Virginia, for the purpose of revising certain provisions of the Order by Consent (Order) issued by the Board to ATK on March 18, 2014.

SECTION B: Basis for Amendment

1. ATK operates NRE, a propellant manufacturing facility at State Route 114 near Radford, Virginia. NRE is a commercial operation located as a tenant facility within the Radford Army Ammunition Plant.

2. The Board entered into the Order with ATK effective March 18, 2014 for violation of the Permit's annual VOC emissions limit for 2013. The Order included a civil charge and required submittal of a NSR permit application within 90 days of issuance of the order and submittal of a Title V permit application within 150 days of the issuance of the order.

3. ATK has requested an extension of the deadline for completing the submittal of a Title V permit application.

4. Based on information available to DEQ to date, ATK is otherwise in compliance with the Order and is current with all monitoring and reporting requirements.

SECTION C: Agreement and Order

Accordingly, by virtue of the authority granted it in Va. Code §§ 10.1-1309 and -1316, the Board orders ATK, and ATK agrees to perform the actions described in Appendix A of this Amendment, which supersedes and cancels only paragraph 2 of Appendix A of the Order. Both the Board and ATK understand and agree that this Amendment does not alter, modify or amend any other provision of the Order and that the unmodified provisions of the Order remain in effect by their own terms.

And it is so ORDERED this 8th day of August, 2014.
