RE: Exxon Station #2-6140
9901 Georgetown Pike, Great Falls, Fairfax County, Virginia 22066
Phase II Environmental Site Assessment Report received November 3, 2009

Dear Ms. McBride:

The Virginia Department of Environmental Quality (DEQ) has reviewed the referenced report.

Based on a review of the analytical results, the DEQ believes that the contaminant concentrations reported in the above-referenced document are consistent with open Pollution Complaint Number (PC#) 2010-3028. Therefore, a new PC# will not be issued and this document and any future investigation and/or corrective actions will continue to be tracked under the existing PC#.

Should you have any questions, do not hesitate to contact me at (703) 583-3825 or email me at kurt.kochan@deq.virginia.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Kurt W. Kochan".

Kurt W. Kochan
Environmental Geologist
