**Subject:** XOM 26140 - Great Falls- Lab data

Good Afternoon Kurt,

Attached is a copy of the laboratory analytical data for the Exxon Station #26140 in Great Falls, VA. The confirmation samples will be received by the lab tomorrow and run on a 24-day turn around. I will provide you with the analytical results as soon as we receive them. Information we have on the potable well is that it is located in the northeast portion of the property, right next to the Exxon sign.

We will update you with additional information as it becomes available. Please feel free to contact Steve Slatnick or I with questions.

Thank you,

*Andrea Taylorson-Collins*
