**Subject:** Crystal Substation and Roaches Run Weekly Update: April 1, 2016

**Importance:** Normal

---

Mr. Glassman,

As requested in your February 23, 2016 letter, below is the weekly update for activities at the Crystal Substation and at Roaches Run/Gravelly Point. If you have any questions please contact John Black or me.

I am sending a separate email with facility drawings requested by John Giese. Please let me know if you do not receive those files.

Thank you,  
Jason

**Crystal Substation Daily  
Inspection Notes and Summary: April 1, 2016**

**Summary Friday March 25 – Thursday March 31:** No signs of sheen or oil of any kind were observed at any of the inspections points this week. We will contact DEQ within the next week regarding potentially reducing the frequency of inspections moving forward. All vaults that have been previously inspected are scheduled to be power washed cleaned next week (week of April 4) by HEPACO. Confined space entries will be performed and HEPACO will remove solids and pressure wash inside of each vault as well as the duct banks containing our cables.

Below you will find our daily observations for inspections:

**Friday 12:00 pm March 25 (high tide )** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen.

**Saturday 5:45 pm March 26 (low tide)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen.

**Sunday 10:35 am March 27 (high tide)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen.

**Monday 11:15 pm March 28 (high tide)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen.

**Tuesday 12:15 pm March 29 (tide coming in)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen. All inside and outside electrical vaults were inspected and did not contain enough water to require pumping. Approximately 850 gallons of rain water was pumped out of the newly lined containments surrounding each of the four transformers.

**Wednesday 11:30 am March 30 (low tide)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil or sheen. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen.

**Thursday 9:00 am March 31 (tide low going out)** – Storm water drop inlet outside Station showed no signs of oil or sheen. Roaches Run outfall showed no signs of oil. Gravelly Point boat launch area showed no signs of oil or sheen. Roaches Run parking area showed no signs of oil or sheen. Electric vaults inside and outside station were empty.
