

# 2014 Annual Virginia Green Travel Star Awards

## Supporting Organization of the Year:

# Norfolk International Airport

Norfolk, Virginia

### Virginia Green Travel Star Award Summary

- ✓ Norfolk International Airport® is the major commercial airport serving southeast Virginia, providing convenient air access for the region's tourists and visitors. They have followed sustainable environmental practices for decades as a "best business practice" to conserve resources and preserve their beautiful garden atmosphere.
- ✓ In addition to water conservation, energy efficiency, recycling and waste reduction throughout the airport, the Authority completed Phase One of a Refurbishment Project that included major renovations of the Departures Terminal Lobby and concourse. This was done to insure the Airport's terminal facilities remain attractive, comfortable and energy efficient.
- ✓ The renovation included a 10,000 sq. ft. skylight complex in the main lobby resulted in the elimination of 51% of the ceiling light fixtures (225 fixtures), and now provides natural light to over 100 4-6 foot wide planters.

Virginia Green Travel Star Award  
accepted by Norfolk International  
Airport's Charles Braden and Susan Long
