PROJECT DESCRIPTION: James City Service Authority has applied for a reissuance of a permit for the Kings Village W-31 Subdivision in northwestern James City County, Virginia. The permit would allow the applicant to withdraw an average of 12,329 of gallons per day. The ground water withdrawal is a public water supply and will support the residential connections within the service area. The proposed withdrawal will utilize the Chickahominy-Piney Point aquifer at a depth between 185 feet to 250 feet below the land surface at the withdrawal site. An aquifer is a body of rock or layer of sediment in the ground in which ground water is stored and transported. DEQ has made a tentative decision to issue the permit.

AFFECTED AREA: Computer modeling predicts that the aquifer will not experience one foot of drawdown due to the withdrawal.
