

The second ***Lake Management Working Group Meeting*** for the Little Calfpasture Water Quality Improvement Plan will be held on ***October 25, 2016 at 2:00 p.m. at the Goshen Volunteer Fire Department (140 Main Street, Goshen VA)***. After some initial brainstorming at the first working group meeting, we will be returning to the group to discuss a draft lake management scenario for implementation along with cost estimates and timelines for implementation. We will review specific management practices included in this implementation scenario based on input we received from participants at the first meeting. The primary objective of this second meeting will be to get local feedback on the draft implementation scenario and modify it accordingly.
