

Program Registration & Fees:

The operator training program has changed the registration process to an electronic format that facilitates online registration and payment options, including credit cards. This format also allows participants to create and manage their own student records to track class participation and print completion certificates.

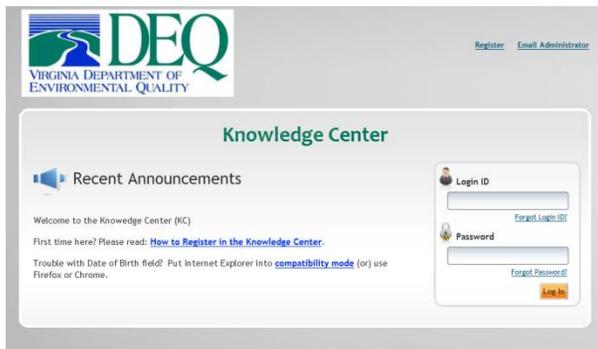

The online method must be used to register for all wastewater operator training workshops. No paper registration forms will be accepted; however payment by check will still be acceptable option.

Knowledge Center (KC) Registration:

DEQ's Knowledge Center (KC) is an online Learning Management System that can be used by local and federal government officials, private developers, contractors and consultants to enroll in classroom courses, launch online training and access other useful learning resources. Please use only the Internet Explorer browser to access the KC. The browser must be in compatibility mode (see video instruction on the KC).

Before logging on to the KC you will need to create a profile for yourself by registering here:

<https://covkc.virginia.gov/deq/external>

Once a profile has been created and an online ID has been selected you will be granted access to the KC to begin registering for available training workshops.

Who should attend:

Managers and responsible charge operators with responsibility for complying with recordkeeping and reporting requirements of the treatment system's VPDES and/or Nutrient General permit will find this program helpful.

Training Credits:

Training credits will be awarded based on the workshop(s) attended. Both workshops have been approved by the Board for Waterworks and Wastewater Works Operators and Onsite Sewage System Professionals for the following training credits (TC) and can be used for experience substitution as permitted by the Board.

VPDES Permit:	0.35 TC
Nutrient General Permit:	0.30 TC

Continuing Professional Education:

One (1) CPE contact hour is awarded for every 50 minutes of training. A certificate will be mailed upon completion of the workshop.

Cancellation:

We reserve the right to cancel any program when there are insufficient registrations. People who registered will be notified of the cancellation and receive a full refund of the registration fee.

Additional Information:

For additional information regarding the Knowledge Center, the registration process or the training programs contact the Operator Training Program staff:

Workshop Descriptions:

The program includes the following two workshops:

VPDES Permit:

This program is designed to review recordkeeping and reporting requirements associated with the Virginia Pollutant Discharge Elimination System (VPDES) permit. The program will include discussions of recordkeeping requirements and the various reporting requirements established in VPDES permits and in the new EPA e-reporting guidance.

The program will include hands on exercises in performing required calculations and completing a VPDES monthly discharge monitoring report (DMR).

Nutrient General Permit:

This program is designed to identify reporting requirements associated with the General Permit for Total Nitrogen and Total Phosphorus Discharges in the Chesapeake Bay Watershed. The program will review what reports must be submitted to comply with permit requirements and will focus on the methods and procedures required for completion of the Nutrient General Permit monthly discharge monitoring report (DMR) and in the new EPA e-reporting guidance.

The program will include hands on exercises in performing required calculations and completing a Nutrient General Permit monthly discharge monitoring report (DMR).
