Subject: Mirant Plant

As a concerned citizen of Alexandria, Virginia, I wanted to let you know that I think it is time for the City to move past the Mirant controversy and allow a permit to be granted to do the stack merge. Given that Mirant is not going away anytime soon, our energy needs in this area, and the amount of money (3 million) that the City of Alexandria has spent fighting them, I feel that it is time for a compromise and, at least for now, allow them to spend the 30 million dollars it will take to complete the stack merge which will make our air cleaner. I know there is an Air Quality Board meeting tomorrow and hope that this is the outcome. I think that you have heard from small number of vocal opponents who do not represent the majority of the citizens of Alexandria. Thank you for your consideration.
