Subject: I Support the Stack Merge Plan

I support the stack merge plan. After years of debate, Mirant has a \$30 million plan to improve Alexandria's air quality. Over the past few month's they've worked with community groups, city planners and the Virginia Air Board to come up with a bright idea. Now is the time to approve a \$30 million dollar plan that will meet our energy needs and improve Alexandria's air quality. Join me. Together we can help guarantee cleaner air, a safer environment and put a stop to wasteful spending.
