Has there been a release (or threat of release) or disposal of a hazardous substance at the site? This is defined by sections 101(14) and 102 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), with exception to the limitations in section 104(a)(3).

What is the hazardous substance?

Is that hazardous substance listed as a "hazardous waste" according to the Code of Federal Regulations, Title 40, Volume 18, Part 261 (latest revision).

Is remediation/cleanup being done with oversight by any State or Federal Program?

If you intend to deduct cost incurred between August 5, 1997 and December 21, 2000, provide evidence that the property meets the geographic requirements of the Act for that period.

The submitted information is factual and complete to the best of my knowledge.
