Dear Ms. Sinclair,

I have just recently learned about the Chickahominy Power Station.

I request that this permit be reviewed by the Air Pollution Control Board.

APPLICANT NAME AND REGISTRATION NUMBER: Balico LLC; 52610

FACILITY NAME AND ADDRESS: Balico LLC/Chickahominy Power, 1380 Coppermine Rd. Ste.115, Herndon, VA 20171

Thank you.

Shane

Official Comments of Balico, LLC
Sponsor of the Chickahominy Power Generation Facility
At The
Public Hearing
for the
Prevention of Significant Deterioration Permit issued by the Virginia Department of
Environmental Quality, under the authority of the Air Pollution Control Board
Registration Number 52610
March 5, 2019

My name is Joseph Earl (Jef) Freeman, Jr. I reside at 2315 Hopecrest Drive in Charlotte, North Carolina. I am the Director of Development for Balico, LLC and as such, I am here tonight to represent my company and to offer the official remarks as they pertain to our Chickahominy Power electric generation facility.

I would like to begin by thanking the Virginia Department of Environmental Quality staff at the Piedmont Regional office for their efforts on reviewing our permit application. They have worked tirelessly with our air quality consultant; AECOM, to perform an exhaustive review of all aspects of the project which we believe has confirmed that our project meets the necessary regulatory standards which are protective of the air quality for both Charles City County and Virginia. We appreciate their diligence and work ethic.

Additionally, I would also like to extend a thank you to the administrative and community leadership of Charles City County. We have had many opportunities to interact with them and appreciate their candor with us as we have moved forward with the project's development over the past two and a half years. Through their leadership and guidance, we are convinced that our project is one that will be looked upon as a trusted and valued member of Charles City County for many years to come. We appreciate their stewardship.

Finally I would like to express my personal gratitude to our project team. Together we have over 250 years of collective experience in the power generation sector, and much of that has been in the Commonwealth of Virginia. We have sought out and surrounded ourselves with quality people that share our vision of how to do things the right way. We could not be more pleased and have no doubt that Charles City County will also benefit from the long term quality represented by our Team.

The proposed Chickahominy Power electric generation facility is only possible because of the on-going economic expansion being enjoyed by Virginia. Our project represents the most advanced and efficient power generation technologies available in the market today. It has been designed to minimize its environmental footprint. The thermal efficiencies offered by the technology are without parallel and enable it to provide base load energy with as low an emission profile as can be achieved today. We are also proud of the fact that the facility has also been designed with air cooling technology that reduces the use of water to a minimum in recognition of the regions concern for its water resources.

As a result of all of these things and many others, it is our strong belief that the Chickahominy Power project will become a valued and valuable electric resource and a vital component of a broad range of supply options demanded by today's environmentally conscious society.

Thank you for the opportunity to provide comments in tonight's hearing.

Respectfully,

Jef Freeman

Dear Ms. Sinclair,

I realized that I needed to submit my address in order for this feedback to be properly recorded. My address is [7609 Sweetbriar Rd, Henrico, VA 23229](#) and my phone number is 804-332-8824. Feel free to reach out with any questions.

Best,
Tracy Jebo

Good morning Ms. Sinclair,

This is Beth Roach. I just left you a voicemail concerning my inclusion of my physical address.

I live at [500 Hull St, Apt 117, Richmond, VA 23224](#).

Will this suffice or will I need to start another email thread?

Thank you.

Beth
