## **INSTRUCTIONS:**

### **To Verify Your ASE L-1 Status for the VIRGINIA DEPARTMENT OF ENVIRONMENTAL QUALITY**

Technicians who hold a valid ASE L-1 Certification may qualify as Virginia Certified Emissions Repair Technicians (CRT). Applicants must verify their ASE L-1 status in order to complete the application process.

In order to verify your ASE status, please log into your personal on-line ASE technician account. Select the option to send your Certification Report by email. Enter the email address of your Vehicle Emissions Compliance Officer or contact DEQ at 703-583-3900 and ask for an appropriate email address.

Upon receipt, your status will be reviewed and, if deemed necessary, verified. Please allow at least two (2) weeks to update your DEQ status.

Please note: Your Virginia CRT is valid for up to three (3) years, or until the month of expiration of your ASE L-1 Certification, whichever is earlier. If your DEQ CRT expires before your L-1 expires, please submit a new CRT application (there is no need to re-submit your ASE L-1 verification unless you have renewed and have a new ASE L-1 expiration date).

If you have any questions regarding the above, please contact the Virginia Department of Environmental Quality at (703) 583-3900 (toll-free in Virginia at 1-800-275-3844); or call ASE at (703) 669-6600.
