**Subject: RFAAP Open Burning Ground Permit Application  
Request for Permit Application Extension to 28Oct2015  
Radford Army Ammunition Plant, Radford, Virginia  
EPA ID#: VA1210020730**

Dear Ms. Romanchik:

In regards to the permit renewal schedule, RFAAP expressed concerns about timing of the NOD letter on the EWI application and the due date for the open burning ground (OBG) application. RFAAP is well into development of the OBG application using many of the same approaches as they used in the EWI application. Several of these approaches were subjects of the NOD letter. RFAAP was concerned that they would not have resolution on the EWI NODs in sufficient time to facilitate addressing the same issues in the OBG application and still meeting the submittal deadline. In response, DEQ suggested that RFAAP may want to consider requesting an extension on the OBG permit renewal. DEQ stated they have the flexibility to grant an extension up until the permit expiration date of October 28, 2015, and we would like to respectfully request such an extension.

If you have any questions or concerns, please contact Mr. Matt Alberts at 540/639-8722 (matt.alberts@baesystems.com).

Sincerely,

  
Jay Stewart  
Environmental Manager
