4. On November 6, 2015, DEQ staff conducted a Partial Compliance Evaluation (PCE) of the Facility's Hydrator Particulate Matter test report received on October 22, 2015 for stack testing conducted on August 26, 2015. The following describe the staff's observations and identify the applicable legal requirements.
  - (a) Reported PM emissions were 1.77 lb/hr.
  - (b) The Consent Order Appendix A, effective April 14, 2015, requires that "O-N Minerals agrees to perform performance testing during each of the four semiannual (six month) periods following the effective date of this Consent Order for particulate matter (PM) on the hydrator (U10) using EPA Method 5 (40 CFR Part 60, Appendix A) or other DEQ approved method.
