SECTION C: Findings of Fact and Conclusions of Law

1. The Stafford County Board of Supervisors owns and Stafford County Utilities ("Stafford Utilities") operates the Plant in Stafford County, Virginia. The Permit allows the Stafford County Board to discharge treated sewage and other municipal wastes from the Plant, to Austin Run, in strict compliance with the terms and conditions of the Permit.
2. Austin Run is located in the Potomac River Basin. The unnamed tributary of Austin Run that the Plant discharges to has not been assessed for impairment.
3. On May 20, 2009, the County reported to DEQ that a contractor installing underground cable for Dominion Virginia Power drilled through the sanitary sewer force main from the Aquia/Bridge Pump Station. The County estimates that approximately 22,500 gallons of raw sewage flowed into Aquia Creek.
4. On July 2, 2009, the County notified DEQ that an unauthorized discharge of digested sludge from the sludge holding tank at the Plant had occurred. The County reported to DEQ that the unauthorized discharge was a result of operator error in sludge wasting practices at the Plant. The County estimates that approximately 1,000 gallons of sludge ran into the storm drain and into Austin Run Creek.
5. On August 22, 2009, the Stafford County sanitary sewer collection system experienced two unauthorized discharge events at two separate pump stations; the Austin Run Pump Station, and the Potomac Hills Pump Station. The County notified DEQ that both unauthorized discharge events occurred during storm events and were caused by lightning strikes which disabled the flow transducers at both pump stations. The County reported that the unauthorized discharge began at approximately 4:00PM on Saturday August 22, 2009, and continued until 7:00AM on Monday August 24, 2009 at both pump stations. The County informed DEQ that the extended duration of the unauthorized discharges was due to issues with the telemetry polling system, which failed to operate and did not trigger any alarms.
6. The County estimates that 2.5 million gallons of sewage was discharged from the Austin Run Pump Station into Austin Run Creek which flows into Aquia Creek as a result of the August 22, 2009 through August 24, 2009 unauthorized discharge event.
7. The County estimates that 55,000 gallons of sewage was discharged from the Potomac Hills Pump Station into Aquia Creek as a result of the August 22, 2009 through August 24, 2009 unauthorized discharge event.

8. NRO issued Notices of Violation for the aforementioned violations as follows: NOV No. W2009-07-N-0007, issued July 16, 2009; NOV No. W2009-09-N-0006, issued September 10, 2009; and NOV. No. W2009-10-N-0006 issued October 16, 2009.
9. Va. Code § 62.1-44.5 states that “[e]xcept in compliance with a certificate issued by the Board, it shall be unlawful for any person to discharge into state waters sewage, industrial wastes, other wastes, or any noxious or deleterious substances.”
10. The Regulation, at 9 VAC 25-31-50, also states that except in compliance with a VPDES permit, or another permit issued by the Board, it is unlawful to discharge into state waters sewage, industrial wastes or other wastes.
11. Va. Code § 62.1-44.15(5a) states that a VPDES permit is a “certificate” under the statute.
12. The Department has issued no permits or certificates to the Stafford Board for the Plant, other than VPDES Permit No. VA0060968. The discharges of sewage noted in this Order were unauthorized and therefore not covered under VPDES Permit No. VA0060968.
13. Austin Run, the unnamed tributary to Austin Run, and Aquia Creek are surface waters located wholly within the Commonwealth and are “state waters” under State Water Control Law.
14. Based on the foregoing information collected by DEQ, the State Water Control Board concludes that the Stafford County Board violated the following statutory and/or regulatory provisions as a result of the unauthorized discharges occurring from the collection system on May 20, 2009, July 2, 2009 and August 22 through August 24, 2009.

 - VPDES Permit No. VA0061590, Part II, Section F

"Net project cost" means the net present after-tax cost of the SEP, including tax savings, grants, and first-year cost reductions and other efficiencies realized by virtue of project implementation. If the proposed SEP is for a project for which the party will receive an identifiable tax savings (e.g., tax credits for pollution control or recycling equipment), grants, or first-year operation cost reductions or other efficiencies, the net project cost shall be reduced by those amounts. The costs of those portions of SEPs that are funded by state or federal low-interest loans, contracts, or grants shall be deducted.
- d. By signing this Order the Stafford Board certifies that it has not commenced performance of the SEP.
- e. The Stafford Board acknowledges that it is solely responsible for completing the SEP project. Any transfer of funds, tasks, or otherwise by the Stafford Board to a third party, shall not relieve the Stafford Board of its responsibility to complete the SEP as described in this Order.
- f. In the event it publicizes the SEP or the SEP results, the Stafford Board shall state in a prominent manner that the project is part of a settlement of an enforcement action.
- g. The Department has the sole discretion to:
 - i. Authorize any alternate, equivalent SEP proposed by the Facility; and

- ii. Determine whether the SEP, or alternate SEP, has been completed in a satisfactory manner.

- h. Should the Department determine that the Stafford Board has not completed the SEP, or alternate SEP, in a satisfactory manner, the Department shall so notify the Stafford Board in writing. Within 30 days of being notified, the Stafford Board shall pay the amount specified in Paragraph D.2.b, above, as provided in Paragraph D.2.a, above.

 - b. The Director or Board terminates the Order in his or its sole discretion upon 30 days' written notice to the Stafford Board of Supervisors.

Termination of this Order, or any obligation imposed in this Order, shall not operate to relieve the Stafford Board of Supervisors from its obligation to comply with any statute, regulation, permit condition, other order, certificate, certification, standard, or requirement otherwise applicable.

12. Any plans, reports, schedules or specifications attached hereto or submitted by the Stafford Board of Supervisors and approved by the Department pursuant to this Order are incorporated into this Order. Any non-compliance with such approved documents shall be considered a violation of this Order.
13. The undersigned representative of the Stafford Board of Supervisors certifies that he or she is a responsible official authorized to enter into the terms and conditions of this Order and to execute and legally bind the Stafford Board of Supervisors to this document. Any documents to be submitted pursuant to this Order shall also be submitted by a responsible official of the Stafford Board of Supervisors.
