

HAZARDOUS WASTE PERMIT MODIFICATION APPROVALS 07/01/19 – 06/30/20

Overview

Under the Virginia Hazardous Waste Management Regulations (VHWMR), the Department of Environmental Quality (DEQ) must maintain a list of approved hazardous waste management permit modifications. This list must be updated annually. In addition, a notice must be published in a statewide newspaper that an updated list is available for public review. Table 1 below provides information regarding the permit modification approvals that were issued during the most recent state fiscal year ending on June 30, 2020.

Table 1 – Hazardous Waste Permit Modification Approved in State Fiscal Year 2020

Table 1 - This table provides information about hazardous waste permit modifications approved by DEQ between July 1, 2019 and June 30, 2020. It includes the following information: facility name and location, EPA identification number, the classification of the permit modification, a summary of the modification and the date of approval. Permit Modification Classifications are defined in [40 CFR § 270.42](#).

Facility Name and Location	EPA Identification Number	Permit Modification Class	Summary of Modification	Date of Modification Approval
Radford Army Ammunition Plant (Incinerator Permit) Radford, VA	VA1210020730	Class 3	New incineration units	11/21/19
Safety-Kleen Systems, Inc. Vinton, VA	VAD000737361	Class 1	Contingency Plan Emergency Coordinators	12/04/19
U.S. Navy Dahlgren (Container Storage Permit) Dahlgren, VA	VA7170024684	Class 1	Contingency Plan Emergency Coordinators	01/27/20
