Dear Mr. Stewart:

The revisions to the Part A and B permit applications for the renewal of the Hazardous Waste Subpart X Open Burning Permit at the Radford Army Ammunition Plant's (RAAP), Radford, Virginia facility, dated September 15, 2015, was received on September 17, 2015. In accordance with the Virginia Hazardous Waste Management Regulations as codified in Title 9 of the Virginia Administrative Code, Agency 20, Chapter 60 (9 VAC 20-60), this letter constitutes the Virginia Department of Environmental Quality's, Office of Waste Permitting and Compliance's (DEQ's) second completeness review of the Subpart X Open Burning Part A and B Permit applications.

Based on the review of the facility's permit application, no additional information will need to be submitted in response to the DEQ's previous comments, dated July 21, 2015, and the application is now considered administratively complete.

The DEQ will begin the technical completeness review of the Part A and Part B permit applications and will respond with comments within 60 days (December 28, 2015).
