

## FIELD INSPECTION

|                                      |                                                            |                                |                             |
|--------------------------------------|------------------------------------------------------------|--------------------------------|-----------------------------|
| <b>Project Name:</b>                 | Mountain Valley Pipeline                                   | <b>Inspector:</b>              | Marshall Willis             |
| <b>Inspection Date:</b>              | Friday, November 22, 2019                                  | <b>Project Contact:</b>        | Brian Clauto, Cory Chalmers |
| <b>Spread I:<br/>Franklin County</b> | STA 13644+82 – 13690+91<br>MVP-FR-293.02<br>ATWS 1342/1343 | <b>Weather (Wet/Dry/Rain):</b> | Rainy                       |

**STAGE OF CONSTRUCTION:** (Check all that apply)

- Clearing                       Rough Grading                       Trench Excavation                       Pipe Assembly, Testing & Installation  
 Backfilling and Grade Restoration                       Final Grading & Stabilization                       Other: Dormant

- |   |                                                                                                                                                                                 | Yes                                 | No                                  | N/A                      |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------|-------------------------------------|--------------------------|
| 1 | Are controls installed and implemented in accordance with the approved erosion and sediment control plan and stormwater management plans?                                       | <input checked="" type="checkbox"/> | <input type="checkbox"/>            | <input type="checkbox"/> |
| 2 | Are all control measures properly maintained in effective operating condition in accordance with good engineering practices and, where applicable, manufacturer specifications? | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 3 | Areas of offsite sediment deposition were observed?                                                                                                                             | <input type="checkbox"/>            | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Comments: Inspected the following resources: S-GH3, S-GH4, S-GH2, and S-E29.

STA 13666+50: CFS maintenance needed.

**Recommended Corrective Action:** Maintain and install all controls per the approved plans and PSS&S.

**Deadline:** Within 24-hr notification

The recommended corrective action deadline date applies to all conditions noted on this report unless otherwise noted. If listed condition(s) currently constitute non-compliance and/or corrective actions are not completed by the deadline, other enforcement actions may be issued to the entity responsible for ensuring compliance on the above project.

Inspector Signature: *Marshall Willis*

Date: 11/22/2019

## FIELD INSPECTION PHOTO LOG

**Project Name:** Mountain Valley Pipeline

**Date:** Friday, November 22, 2019

Fig. 1: **STA 13650+00** – Controls in place. Area adequately stabilized.

Fig. 2: **STA 13666+50** – CFS maintenance needed.

Fig. 3: **Stream S-E29** – Controls in place along resource and functioning properly.

Fig. 4: **STA 13438+31** – Controls in place and functioning properly. Area stabilized.
