

This is a notice for the fourth meeting of the Education & Outreach Workgroup, which is tasked with developing recommendations related to education and outreach as part of the development of the Salt Management Strategy (SaMS). A chloride TMDL has been developed for the Accotink Creek watershed located in Fairfax County. Additionally, water quality patterns throughout the Northern Virginia region show that the chloride pollution issues observed in the Accotink Creek watershed are not isolated to that watershed, but instead widespread throughout the region. Therefore, the Virginia Department of Environmental Quality (DEQ) in partnership with a broad coalition of stakeholders that make up the SaMS Stakeholder Advisory Committee have begun the development of a comprehensive strategy that aims to provide recommendations for more efficient and effective use of salts during winter weather management.

The purpose of this meeting is to report on follow-up items from the last meeting and to finalize the workgroup's recommendations for the SaMS.

If you have any questions regarding the Education & Outreach Workgroup, this meeting, or the SaMS, please contact Sarah Sivers via phone, email, or conventional mail using the information listed at the bottom of this notice. All materials related to this project will be posted on the DEQ website at: <https://www.deq.virginia.gov/SaMS/MeetingMaterials.aspx>

### **The fourth Education & Outreach Workgroup meeting will be held:**

**Tuesday, February 25, 2020 from 1:00 p.m. to 4:00 p.m.**  
**Northern Virginia Regional Commission**  
**3040 Williams Dr**  
**Suite #200**  
**Fairfax, VA 22031**

In case of inclement weather, the alternate meeting date will be Thursday, February 27, 2020 from 1:00 p.m. to 4:00 p.m. in the same location. Please note that if Fairfax County schools are closed on Tuesday due to inclement weather, the meeting will be postponed to this alternate date.
