

Salt Management Strategy

First Public Meeting – January 17, 2018

Meeting Purpose

- Kick-off the Salt Management Strategy (SaMS) development to the public
- Describe plans for developing the SaMS
- Invite participation in the Stakeholder Advisory Committee (SAC)
- Outline impacts salts have on the environment, infrastructure, and property
- Discuss the balance improved salt use practices can strike between the crucial services salt application provides and the impacts from salt application

Meeting Agenda

6:30-7:00pm – Informal table session

- ICPRB Table – discussing and answering questions on the impacts of salts on the environment, infrastructure, and property
- Water Purveyors Table – discussing and answering questions about the drinking water systems in the SaMS project area
- DEQ SaMS Table – discussing and answering questions about the SaMS and the SAC
- DEQ TMDL Table – discussing and answering questions about the Accotink Creek TMDL and TMDL implementation through the SaMS

7:00-8:00pm
