

# BMP LIST OVERVIEW

- BMP List Purpose:
  - To provide a “comprehensive” list of all known operational BMPs
- 12 Resources used to develop list:
  - VDOT BMP Manuals, NH Green SnowPro Training Manual, NH Storage/Handling Fact Sheet, SIMA BMP Guidelines, MN Snow and Ice Control Handbook for Snowplow Operators, MN Winter Parking Lot and Sidewalk Maintenance Manual, Adirondack Watershed Institute Report with Road Management Recommendations, Clear Roads Handbook of BMPs for Road Salt, Salt Institute Safe and Sustainable Snowfighting, Salt Institute Safe and Sustainable Salt Storage, Personal Communications on the Precision Deicing Technology

# BMP LIST OVERVIEW – BMP LIST STRUCTURE

- Long and Short document – Same structure
  
- 6 major categories:
  1. Equipment/Tools
  2. Before Winter
  3. Before the Storm
  4. During the Storm
  5. After the Storm
  6. Deicers
  
- Further broken down into general, transportation, and parking lots/sidewalks/properties BMPs
  
- Highlighted the Fundamental 5 and Second 6 from Salt Institute 5/24/18 presentation

# BMP LIST OVERVIEW - TAKE AWAY

- Many of the same practices identified between the 12 resources
- Assumption – this is approximately the existing universe

# BMPS NEXT STEPS

- GWMP BMPs
  - How does the format of this BMP resource work? Does it speak to a particular audience?
  - Do your operations use any of these BMPs or do you plan to? If so what sorts of experience and insight can you offer?
- Resources shared by Snow and Ice Management Co
  - How does the format of this BMP resource work? Does it speak to a particular audience?
  - What experience do programs have using assessment tools like the Smart About Salting Self-Assessment tool?
- DEQ Assembled BMP List
  - Do we want to keep these categories or re-classify by audience?
  - Do we want to develop pros and cons for all of these or identify 'groups' to provide pros and cons for?
- Other thoughts...?
