Green Garage: Start Your P2 Engines

Improve Your Auto Shop's Environmental Performance and Worker Safety While Saving Money

Virginia DEQ offers free pollution prevention (P2) technical assistance for auto shops in Northern Virginia!

Are you looking to save money on your operations? Do you want to enhance health and safety for workers? Do you want to do all this and be an environmental leader in your industry? Virginia's Green Garage Program can help your auto shop comply with, or even reduce, your regulatory obligations by using less-hazardous products. Through this free, voluntary, non-regulatory program, your auto shop can create a greener and cleaner workplace.

We can help you:

- Save money
- Foster a safer work environment
- Comply with state and federal regulations

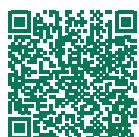

Reduce your use of potentially dangerous chemicals in:

- Brake cleaners
- Lead wheel weights
- Janitorial products
- And more!

Take advantage of this no-risk opportunity

- Get reimbursed up to \$200 for your time
- Free alternative products for trial
- Ultimately save money with safer, less toxic products

Interested? Great! Call **703-633-1136** or email greengarage@erg.com to schedule a walk through today.
